

CULLIGAN® BluSoda™

Home/Office Bottle-Free Water Cooler

EXPERIENCE THE DIFFERENCE CULLIGAN WATER CAN MAKE.

PRODUCT BENEFITS

- Modern design
- Dry cooling technology
- Premium sparkling water option
- Countertop or free standing
- Custom water filtration options

Compact, Powerful Stainless-Steel Design – the Perfect Choice for Office and Home

The BluSoda bottle-free water cooler was developed to deliver high-end performance in an attractive, compact design that will complement any home or office setting. In addition to the stunning stainless steel design and outstanding 8 gallon per hour cooling capacity, a Culligan bottle-free cooler makes staying healthy and hydrated easier than ever by delivering on-demand cold, sparkling, ambient or hot water at the touch of a button.

Not only does Culligan offer a superior line of bottle-free coolers, but working with Culligan also means that you get the advantage of working with certified sales, installation and service professionals that have made Culligan a trusted leader in the water treatment industry for over 80 years.

Culligan Water

CULLIGAN® BluSoda™

Product Features

- Modern, space-saving design using high-quality stainless steel and aluminum
- Dispensing options – cold/ambient/sparkling or cold/sparkling/hot
- Dry cooling technology – low-noise, low-maintenance, high performing and compact
- BluSoda and BluSoda Hot models provide up to 8 gallons of cold water per hour
- Fast fill rate of up to 1 GPM
- BluSoda Hot model provides up to 2 gallons of hot water per hour at the perfect temperature (185° F)
- Optional stainless steel cabinet with inner bracket for mounting filters and the CO₂ cylinder

Dry Cooling

Innovative direct cooling technology means a compact, space-saving design that chills water quicker and more efficiently than the standard cooling process.

Hot Fizz 30

Optional Cabinet

Filtration Options

- 1) **Sediment Filters** Filters out particulate materials such as dirt, sand, and rust.
- 2) **Carbon Filters** Reduces chlorine taste and odor. Helps protect the RO membrane.
- 3) **Third Stage Filter can be either:**
 - **Reverse Osmosis Filters** Reduces microscopic impurities such as arsenic, lead, sodium, and others.
 - or:
 - **Total Defense** Specialized carbon block that reduces cysts, lead, VOCs, MTBEs and others.
